BoothSaver™ 2049

Product: BoothSaver™ 2049 High Performance Release Tape is designed for use in the most paintshop demanding applications. It features a heavyweight natural rubber adhesive that is engineered for high tackiness and peel strength on a wide variety of surfaces, including low-surface-energy plastics. It can also be used to wrap or tape down cords & hose, to hold non-adhesive films in place, wrap odd shaped equipment such as spray guns and joints, to protect baseboards from scuff marks.

Benefits: High-tack with strong adhesion to low-surface energy plastics
Easy to tear application in both vertical and horizontal directions.
Excellent cold-adhesion and removal properties
Chemical resistant, water-proof backing.
Blue color for easier identification.
Ideal for use with GrateSavers™.
Writable surface for marking and identification.
Residue free removal
Solid non-hazardous, PVC free waste.
High tensile strength for demanding applications.

Usage: BoothSaver™ 2049 comes in a 48m x 55m roll.

Packaging: M12049-48-55 (48mm x 55m)
