BoothSaver™ 2042

阻燃防静电薄膜

Product: BoothSaver™ 2042 Flame-Retardant Antistatic Equipment Wrap is used to protect paint booth robots and equipment from overspray. This film is paint-shop safe, with self-extinguishing fire retardancy and antistatic properties that safely dissipate electrostatic buildup. This product also exhibits excellent clarity, flexibility, and self-clinging properties that make it especially suitable for protecting process equipment.

产品: BoothSaver™ 2042 阻燃防静电薄膜，用于保护机械手、设备等防止油漆过喷。该产品含自灭阻燃剂，并对静电有弥散作用，适合工业喷涂工艺中使用。该产品高度透明，延展性强，可在无胶水的情况下自行粘附于光滑表面。

BoothSaver™ 2042

阻燃防静电薄膜

Benefits:

Self extinguishing fire retardancy.
Antistatic Surface Resistivity $\leq 10^{11}\Omega$.
Flexible for additional tolerance with moving parts.
Physical barrier that is impenetrable to even the heaviest overspray.
Easily put in place and easily removed. No chemical cleanup needed.
Crystal clear- can be used on windows.
Flexible enough to use on moving robots.
Solid non-hazardous waste. Easy disposal.

优点:

自灭阻燃属性
防静电表面阻值 $\leq 10^{11}\Omega$
具有弹性可适应机器运动
物理防护，可阻止任何严重过喷
使用和去除方便，无须化学品
高度透明，可用于玻璃窗户
延展性好，可用于活动部件和机械手
仅产生固体无害垃圾

Usage:

BoothSaver™ 2042 roll can be cut to size in paint booth and fastened to equipment with tape such as BoothSaver™ 2049 Release Tape. Equipment should be completely wrapped in film. Remove and replace as needed.

用法:

BoothSaver™ 2042 阻燃防静电薄膜可预先裁成需要的宽度，用普通遮蔽胶带例如 BoothSaver™ 2049 遮蔽胶带固定到设备上。设备应完全包覆，按实际情况更换。

Packaging:

M17042-48-250 (0.40m x 250m)

包装:
