BoothSaver™ 2044 阻燃防静电薄膜

Product: BoothSaver™ 2044 Flame-Retardant Antistatic Equipment Film is used to protect paint booth robots and equipment from overspray. This film is paint-shop safe, with self-extinguishing fire retardancy and antistatic properties that safely dissipate electrostatic buildup. This product also exhibits excellent clarity, flexibility, and self-clinging properties that make it especially suitable for protecting process equipment.

产品: BoothSaver™ 2044 阻燃防静电薄膜，用于保护机械手、设备等防止油漆过喷。该产品含自灭阻燃剂，并对静电有弥散作用，适合工业喷涂工艺中使用。该产品高度透明，延展性强，可在无胶水的情况下自行粘附于光滑表面。

BoothSaver™ 2044

阻燃防静电薄膜

- Benefits:** Self-extinguishing fire retardancy. (UL VTM-0)
Antistatic Surface Resistivity $\leq 10^{11}\Omega$.
Flexible for additional tolerance with moving parts.
Physical barrier that is impenetrable to even the heaviest overspray.
Easily put in place and easily removed. No chemical cleanup needed.
Crystal clear- can be used on windows.
Flexible enough to use on moving robots.
Solid non-hazardous waste. Easy disposal.
- 优点:** 自灭阻燃属性(UL VTM-0)
防静电表面阻值 $\leq 10^{11}\Omega$
具有弹性可适应机器运动
物理防护, 可阻止任何严重过喷
使用和去除方便, 无须化学品
高度透明, 可用于玻璃窗户
延展性好, 可用于活动部件和机械手
仅产生固体无害垃圾
- Usage:** BoothSaver™ 2044 roll can be cut to size in paint booth and fastened to equipment with tape
Remove and replace as needed.
- 用法:** BoothSaver™ 2044 阻燃防静电薄膜可预先裁成需要的宽度。设备应完全包覆, 按实际情况更换。
- Packaging:** M17044-48-200 (1.22m x 200m)
包装: M17044-72-100 (1.83m x 100m)
